EXPERIENCE

BuildOn Technologies **7/2025 – 6/2026**
Full Stack Software Engineer Houston, TX

- Modernized VEO Design Studio legacy app using TypeScript, Durandal, C#/.NET, MSSQL & Angular.
- Collaborated cross-functionally with the Echelon team to deliver scalable, production-ready features in an agile environment.

Gulf Winds **3/2024 – 6/2025**
Full Stack Software Engineer Houston, TX

- Revamped logistics quoting & V2 CMS platform (C#/ .NET Core/EF Core, React/TS/JS), cutting load times 40% & UI bugs 25%.
- Designed and deployed event-driven functionality using Azure Functions to handle background tasks and integrations, improving system responsiveness.

Bouncing Pixel **3/2022 – 3/2024**
Full Stack Software Developer Houston, TX

- Built and shipped client apps with TS/JS, React, Node, NextJS, PHP, .NET, C# & Docker.
- Migrated PHP legacy code to TS/JS/NextJS/.NET, cutting bugs 40% and improving performance.

Wealthguard IG **9/2021 – 3/2022**
Full Stack Software Developer Houston, TX

- Developed React/TS/Node/NextJS apps, integrated Salesforce-driven email campaigns, and designed branded marketing collateral—boosting acquisition & conversions 40%, engagement 25%, and recognition/retention 30%.

Edge196 **1/2021 – 9/2021**
Lead Full Stack Software Developer Houston, TX

- Launched crypto staking platform & flagship Node.js/React/Solidity app—driving engagement +200%, transactions +35%, retention +25%, revenue +25%, and user growth +20%.

EDUCATION

Digital Crafts **9/2019 – 4/2020**
Full Stack Software Developer Certification Houston, TX

- Executed a rigorous software engineering training curriculum encompassing full-stack development with a spotlight on JavaScript, TypeScript, React, Redux, Node.js, Express, and PostgreSQL.
- Directed the completion of a diverse range of projects in a developer portfolio, leading to the execution of a group capstone project which implemented the use of cutting-edge technologies.
